

New Covenant Church,

In light of the survey we did this past week, we will be moving forward THIS SUNDAY with a masked service and a non-masked service. Please read the info below so we can all be prepared for the changes Sunday morning.

9:00 am Masked Service

The 9am service is our masked service. Attendees at this service will be expected to wear a mask from the time that you enter the building to the time that you leave. Children 2 years old and up will be expected to have masks on. We will have extra masks on hand if you should need one. There will not be Children's Ministry available at the mask-required service.

11:00 am Masked welcomed but not required

Our 11am service is our non-masked service. Masks are not required but those who want to wear them are of course welcome wear one. We will have childcare for this service from ages newborn - k5.

Needless to say, it is an extremely polarizing time in our culture. Our hope with these two services is that it meets our specific church bodies needs and allows more people to attend in person services. For those still not comfortable attending either service, our livestream will continue for the 11:00 am service.

We hope you feel valued and loved and that through these unprecedented times we are able to extend grace in our differences. That we are able to show the world unity through the power and presence of He who holds the entire universe in the palm of His capable hands.

Whether in-person or online, we hope to see you Sunday.
